

## PMA LEARNING CHALLENGE

### TERM 1, WEEK TWO

Choose and **INVESTIGATE** one or more of the questions below and **THEN SHARE YOUR THEORIES AND JUSTIFICATIONS WITH US** 🗣️

*This week marks the day (6<sup>th</sup> Feb ) that the very first board game of **Monopoly** went on sale in the world! Here are some “Monopoly” challenges for you to explore...*

**CHALLENGE ONE:** Design a data question that interests you...for example – how many people have played the game in your class or building or school? How many people like this game? What is people’s favourite property to buy? Make sure you use the “Thinking questions for producing data” that are attached to help you as you go! We cant wait to see your findings!

#### **CHALLENGE TWO –**

Which is the “biggest” playing token in a Monopoly game?  
Tell us your theory and how you have proved it!

**CHALLENGE THREE –** Which would be the three best colours of properties to buy to be able to earn the best rent? Tell us your theory and how you have proved it!

**CHALLENGE FOUR –** Does everyone have an equal chance of winning in this game? Tell us your theory and why!
