

PMA EDUCATOR CHALLENGE

REFLECTION WRITING 2023

**Have you been experimenting and researching your own learning and teaching practices in Mathematics?
We would love to hear about what you have been doing!**

Write a short reflection that addresses these questions:

- **What was your provocation?** What challenge were you trying to resolve? What made you try something different?
 - **What did you try?** Why did you choose this action?
- **How did it go?** How did your learners react? What did you notice was different for them? What did you notice changing in your own learning and teaching behaviours and practices?
- **What does it mean for the future** of your mathematics learning and teaching?

Your reflection would be due by 5pm next Monday 16th October! Email it to primarymathsPD@bigpond.com – make sure you include your name and site.
